Do you desire a flourishing life by improving your relationships, self-confidence and inner peace? Many students in the Blanton-Peale Care & Counseling Program in Korean have testified to their gratitude in improving these aspects of their life.

Now the same beneficial program is available, beginning in Fall 2023, in English to promote mental health and wellbeing in diverse communities.

Blanton-Peale Institute was established in 1937 and its mission is to help people heal, grow and flourish. In addition to its psychoanalytic training program, Blanton-Peale Institute established its care & counseling program in Korean in 2004 to promote mental health in Korean American community. Please join us in your journey to enhance personal enrichment and professional development by refining skills in self-awareness, effective listening & communication, and relationships.
